

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ANNUAL REPORT
OF THE
AUDITOR OF STATE.

OFFICE OF AUDITOR OF STATE,
COLUMBUS, OHIO, December 1st, 1894.

To His Excellency, WM. MCKINLEY,
Governor of the State of Ohio:

MY DEAR SIR: I have the honor to transmit herewith my seventh annual report of this department of the State Government, in pursuance of section 3, article 15, of the Constitution of Ohio, and the following provisions of law:

"SEC. 62. The Auditor of State * * * shall, annually, as early as the fifteenth day of December, make and deliver to the Governor, a report of the receipts and disbursements of the State Treasury, for the year ending on the fifteenth day of the previous November; also of the balances of the several funds then in the Treasury, the amount of warrants drawn on each fund, and which remained outstanding, the unexpended balances of all appropriations, a careful estimate of all ordinary receipts and disbursements for the year ending November 15, next following, and detailed statement of the public funded and unfunded indebtedness of each county, township, city, village, and school district, with the rate of interest payable thereon, the date of maturity, and purpose for which the same was created, and all such other matters as are required by law, or he may deem valuable as financial information, together with such remarks and suggestions relative to State finances as he deems proper for the consideration of the General Assembly."

The report, as usual, contains all the statements and exhibits necessary to a clear comprehension of the financial transactions the past year, the present and prospective condition of the various funds, and the manner in detail of receiving and disbursing the same; also many statistical tables relating to valuations, etc.

The arrangement and character of the statements and tables herein are substantially the same as in former reports of this department.

All of which is respectfully submitted.

E. W. POE,
Auditor of State.

There were revaluations of real property of the State for the years 1826, 1835, 1841, 1847, 1854, 1861, 1871, 1881 and 1891.

NOTE.—*Prior* to 1826, real estate only was brought upon the duplicate for taxation for State purposes. Funds for county purposes were derived from a poll-tax, and a tax upon horses, mules and cattle, to which was added, by legislative appropriation, a percentage, from one-fifth to one-half, varying with the several years, from the taxes levied upon real estate.

Under the act of February 3, 1825, which took effect March 1, 1826, all taxable property was placed upon the grand duplicate, viz.: lands and town lots, including buildings, horses, cattle, pleasure carriages, over the value of one hundred dollars, and merchants' and brokers' capital, to which was added, "money loaned at interest," and "all grist, oil and saw-mills; all manufactories of iron, glass, paper, clocks and nails; all distilleries, breweries and tanneries; all iron; brass and copper foundries," under act of March 14, 1831.

Under the act of March 2, 1846, a new system of taxation was inaugurated, which with various slight modifications is now in force.

The total includes the *per capita* tax on dogs, which amounted in 1894 to \$201,594.00.

TABLE No. VII.

AGGREGATE VALUATION AND RATES OF TAXATION.

The following pages give the aggregate valuation of all the real and personal property placed upon the duplicate for taxation in each *township, town, city, village and separate school district* in the State, and the rates levied upon such property, stated in mills and decimals, upon each dollar for 1893 and 1894. The number of mills will therefore indicate the amount of tax in dollars upon each thousand dollars of valuation.

The rate is inclusive of two and seventy-five hundredths ($2\frac{75}{100}$) mills, levied for State purposes, and thus shows the entire tax for all purposes in each locality, except in rare instances where taxes for purely special purposes—such as taxes for road improvements, where abutting property only is taxed and collected on a separate duplicate, or where assessments are made against city lots at a rate per foot front—are placed upon the duplicate for collection for the benefit of contractors.
